Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Washington County, Wisconsin							
	Total		In married-couple family household		In male householder, no wife present, family household		In female householder, no husband present, family household

Not enrolled in school	2,252	+/-330	1,883	+/-305	146	+/-69	99	+/-50
MEDIAN FAMILY INCOME IN THE PAST 12 MONTHS (IN 2016 INFLATION-ADJUSTED DOLLARS) FOR FAMILIES WITH OWN CHILDREN								
Median income (dollars)	89,221	+/-3,022	100,964	+/-2,790	46,588	+/-4,107	40,543	+/-5,699
Children under 18 years in households	30,784	+/-17	24,204	+/-731	1,914	+/-360	4,371	+/-585
PUBLIC ASSISTANCE IN THE PAST 12 MONTHS								
Children living in households with Supplemental Security Income (SSI), cash public assistance income, or Food Stamp/SNAP benefits	13.8%	+/-1.9	7.7%	+/-1.6	27.3%	+/-8.3	40.3%	+/-7.6
POVERTY STATUS IN THE PAST 12 MONTHS								
Children in households for whom poverty status is determined	30,308	+/-185	24,116	+/-712	1,848	+/-344	4,329	+/-576
Income in the past 12 months below poverty level	7.2%	+/-1.5	3.2%	+/-1.1	11.3%	+/-5.3	27.7%	+/-6.2
Income in the past 12 months at or above poverty level	92.8%	+/-1.5	96.8%	+/-1.1	88.7%	+/-5.3	72.3%	+/-6.2
HOUSING TENURE								
Children under 18 years in occupied housing units	30,784	+/-17	24,204	+/-731	1,914	+/-360	4,371	+/-585
In owner-occupied housing units	80.9%	+/-2.2	87.9%	+/-2.2	69.9%	+/-8.5	50.2%	+/-7.7
In renter-occupied housing units	19.1%	+/-2.2	12.1%	+/-2.2	30.1%	+/-8.5	49.8%	+/-7.7

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Foreign born excludes people born outside the United States to a parent who is a U.S. citizen.

Excludes householders, spouses, and unmarried partners.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Public assistance includes receipt of Supplemental Security Income (SSI), cash public assistance income, or Food Stamps.

While the 2012-2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
